SAYS RAIDS ON CUBA
FOR PUBLICITY ONLY

Editor,
Shreveport Journal.

From Miami, Fla., we learn of a Cuban exile force's attack on a sugar mill and port in eastern Cuba. An AP report states that it "is just the beginning of their war of sabotage and nerves aimed at toppling Fidel Castro's regime."

The American public is being handed the same old malarkey. These so-called "anti-Communist" groups stage these "phony" raids for publicity only. Many sincere individuals are sucked into these groups, unaware that nothing will be accomplished to release their people from bondage.

The usual pattern is to publicize phony attacks well in advance—then "topple" the dictator (in this case, Castro), and tell the world that said dictator has been replaced by an "anti-Communist." The "anti-Communist" turns out to be just as communistic as the former one!

The only way the imprisoned island of Cuba can be liberated is to send in the U.S. Army, Navy and Marines. Until this is done—disregard the phony raids—they are just a show. And our CIA directs the whole production.
